Core Features

Digital Display - From Full HD to Stunning 4K

- Vibrant colors, exceptional clarity to enhance your communication.
- Our high-resolution displays ensure sharp text and crisp imagery, ideal for dynamic videos and corporate presentations.
- They provide an immersive visual experience that strengthens your brand and captures audience attention instantly.

Core Features

Certified Digital Signage

- Certified Excellence & Uncompromised Safety
- This product holds international ISO, CE, FCC and CCC certifications.
- It combines elegant design with reliable safety and excellent energy efficiency.

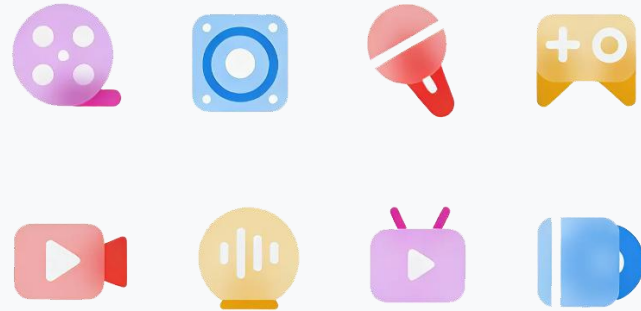

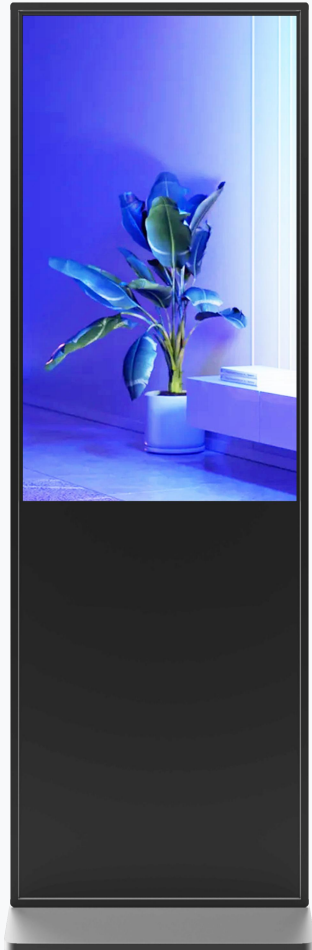

Core Features

Wayfinding Kiosk

Experience seamless interactivity with 40-point infrared touch technology. Designed for high-precision tracking, it delivers a smooth, zero-latency response for multiple users simultaneously.

Core Features

Multi-content Management System

- Support for Limitless Creativity
- Our system supports all major digital formats, bringing your campaigns to life.
- From HD videos and vivid images to important text content, it ensures flawless playback.
- By integrating diverse media on one screen, you can create more engaging, informative and persuasive ads.

Core Features

Floor-Standing Digital Signage with Integrated DMS Control

- Total Control at Your Fingertips via DMS
- Manage your entire display network easily with our advanced Digital Management System (DMS).
- This cloud-based platform supports full remote control: sync screens, adjust settings and update content instantly.
- It ensures consistent, efficient real-time operation across all devices, anywhere.
